RE: Request to Join Millions of Americans on Truth Social

To the Members of the United States Congress:

We are writing to request that you join and actively post on the HOT NEW social media platform, Truth Social.

Truth Social is the TRUE free speech public square where almost 7 MILLION Americans go to interact in the digital media space. In a display of TRUE First Amendment American values, we'd like you to join us and experience:

- A platform used by MILLIONS of Americans as their sole social media and news source.
- The ability to reach a large portion of your constituents, helping you directly communicate with all those you represent to the best of your ability... MILLIONS of Americans who might otherwise not hear your message.
- Posts on Truth Social typically achieve **10X to 15X MORE ENGAGEMENT** than other platforms, making it the most engaging platform in the world - The PERFECT place to hear the voice of the people, grow your base, expand your national portfolio, and activate volunteers.
- Truth Social's "Groups" feature allows you, your staff, and your organizers to quickly build and mobilize volunteer groups for the 2024 Election. Truth Social's user base has proven to be EXTREMELY ACTIVE; they are ready to work hard with you to better the country: ENGAGE THEM!
- A balanced social media portfolio, in the true spirit of FREE MARKET capitalism, you will be supporting all Americans' choice of social media platform and ensuring a secure method of communication with your constituents, regardless of any censorship or manipulation that could occur (and has occurred) on the legacy social media platforms.

We all LOVE Truth Social and are excited to engage with you on the platform in the near future!

Please #JoinTruthSocial and encourage your family, friends, and colleagues to do the same.

Sincerely,

Truth Social Users of America!
